Distribution and Kitting

Distribution Profile

Arden Electronics offer purchasing solutions tailored to your needs. We offer vast experience in the global industry where price, availability and customer service are our driving force.

Our numerous franchises, combined with our worldwide sourcing capabilities, direct purchasing and competitive pricing make us one of the most innovative franchised distributors in the market.

A friendly and approachable technical sales team combined with your own designated internal account manager push us to the leading edge of customer support.

As a testament to our Quality procedures, we are authorised to supply the MOD and the Defence Aviation Repair Agency as well as being ISO 9001 approved, so rest assured that you are in safe hands.

Our company philosophy is to offer customers the total solutions package, so whatever your requirements please do not hesitate to get in touch.

Component Kitting

Is a critical function within the electronics industry today.

Improve your competitiveness, free up resources and reduce your cost base by outsourcing your component procurement to us. We can offer you the latest in programming services as well as sophisticated inventory and order status summaries.

Call, fax or e-mail now and one of our dedicated kitting support staff will be glad to help.
